

Large heat-sealing surface!

Spirit 2 *Electronic*

Hand-operated heat-sealing machine Spirit 2 offers not only simple electronic controls. A upper plate of 150 x 115 mm offers more space for larger textiles and convenient operation.

- More heat-sealing surface thanks to an upper plate size of 150 x 115 mm
- Ergonomic lever for convenient operation
- Wide performance range: heat-sealing textile labels / transfer application / marking and mending of workwear / indelible marking of linen
- Free lower plate - unencumbered operation, no interference from fabric on the heat-seal plate
- Modern graphic display with many functions: control of operation, 3 function keys for parameter pre-selection, choice between 4 languages (English, German, French and Dutch), output and operating hours counter etc.
- Easily exchangeable heat-seal plates in different sizes (see back side)
- Moveable lower plate for simple pressure adjustment
- Electronic release for operation
- Automatic error message in case of malfunctions
- Shock absorber system

Technical data:

230 V, 50 Hz, 750 W
 450 mm long
 220 mm wide
 500 mm high
 Weight: 14,5 kg
 Size of upper plate: 150 x 115 mm

Art. No. 13877

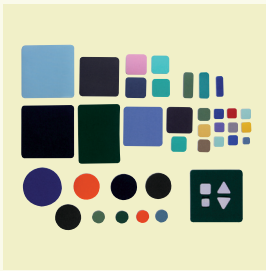

Accessories for heat-seal machines

Versatile solutions for your textiles

For our heat-seal machines we not only offer an extensive range of materials and supplies but also the necessary accessories. The materials and supplies are highly varied and fulfil many different quality criteria. Our accessories have been specially selected and are ideal for practical use. In this way, you can ensure a continuous, uninterrupted work process in your company at all times.

Servicing kit for heat-seal machines

The servicing kit for heat-seal machines consists of a cleaning paste, temperature measuring strips, self-adhesive Teflon fabric, silicone pad for the lower plate and special silicone glue.

Temperature measuring strips

Different versions of temperature measuring strips are available for reliable temperature measurement at heat-seal machines. The indicators change colour to clearly show the current temperature.

	<p>Tip: check the temperature of your machines every day!</p>
