

Beta Cap Press

Our technologically advanced and top quality transfer press Beta Cap is ideal for the application of transfers and emblems to hats, caps and all other types of headwear. The compact press is small, handy and ready to use anywhere with its simple manual operation.

- Manual operated transfer press specially designed for hats and caps
- Practical and easy to handle
- Large opening angle ensures there is plenty of working clearance
- Caps can be quickly and easily fitted and printed
- Locking mechanism to hold cap in position during transfer
- Microprocessor controlled for time and temperature accuracy and ease of operation
- Electronic temperature control / working temperature from 70 to 235 °C
- Digital LED display with many functions e.g. for presetting time and temperature
- Timer with acoustic signal / time can be adjusted from 0 to 9 minutes 59 seconds
- Illuminated control switch
- Temperature / time controller giving error messages in the event of a fault in either the heating element or time control system
- Moveable lower platen holder for ideal adjustment to different cap models
- Robust, long-life design with aluminium housing
- Compact, space-saving model

Technical data:

230 V, 50 Hz, 500 W
 280 mm wide
 800 mm high when open
 430 mm high when closed
 520 mm deep
 Space required:
 280 x 470 x 730 mm
 Printing surface: 150 x 90 mm
 Weight: 15 kg

Art. No. 15826

Versatile solutions for your textiles

There are many different kinds of emblems for top quality marking of workwear and safety garments, PU/rain/promotion/sport/leisure wear together with textile advertising media, and also for general textile marking: „Brillant“ emblems with a blended fabric textile surface, „Profi“ emblems made of polyester, „FTC“ emblems for exposed motifs, sublimation emblems for complicated motifs with high colour brilliance, and much more besides. You will also find that ThermoTex offers additional materials and supplies for practical, top quality marking and repair of your textiles.

Ideal for caps – FTC emblems

The FTC is a top quality emblem for many different applications. It is also suitable for slightly stretchy fabrics and shaped fabrics, e.g. for caps. Exposed motifs are

also possible with FTC. The emblems are thus suitable for universal use at heat-seal temperatures between 180 and 204° C.

Caps and hats

To give your printed textiles a long life, we supply not only the presses and emblems but also all kinds of suitable top quality shirts and caps.

Make your choice from our wide range of different qualities, shapes and colours.

Direct printing and embroidering

We can gladly do direct printing and direct embroidering of caps, hats or shirts for you.

Just ask for an individual offer.
